IV. Open Discussion:

a. Raymond Needham discussed the B&G computer and dissemination problem. Apparently the Janitors and Grounds Crew are not receiving the information that we receive everyday through email. How can we solve this problem? Ideas were brought about like a Kiosk for Janitors and Grounds Crew to access email. Another idea was to update the janitors and ground crews equipment (phone or palm pilot etc.), to be able to download information to read and/or reply. We will bring this up to President Lilley when he comes into our meeting in a few minutes.

b. Kathy Hoffman has researched the Emergency Procedures. They will be distributed after they approval by the President and the Deans.

V. Guest Speaker: UNR President Lilley distributed a draft response to Statewide Budget Cuts. He told SEC the rumor is true and UNR will be closed for two-weeks over the Christmas Holiday (Dec 23, 2002 – Jan 3, 2003), excluding research labs which cannot close down. He also told SEC representatives to tell our constituents to start accumulating comp time. After discussion of the draft response, he informed us the final draft would be his Friday email. President Lilley responded to our plea to get information out to our constituents and will take care of the matter. B&G janitors and ground crews should start receiving messages now.
