How to Use This Guide

Be proactive and start planning early! This guide contains information about the courses offered in the Bristol, England program. Students studying in England have access to the full curriculum at the University of Bristol and will be taking courses with locals as well as other international students from around the globe.

This guide, along with your Academic Advising Report and the USAC catalog, provides the tools you need to plan and apply for a program. Involve your major/minor advisor as you choose a program and prepare for your time abroad so you do not prolong graduation. Course descriptions, photos, and more detailed descriptions of the program are available at usac.unr.edu.
