Be proactive and start planning early! This guide contains information about the courses offered in the Gwangju, Korea program. Students studying in Korea have access to the full curriculum at Chonnam National University and will be taking courses with locals as well as other international students from around the globe.

This guide, along with your Academic Advising Report and the USAC catalog, provides the tools you need to plan and apply for a program. Involve your major/minor advisor as you choose a program and prepare for your time abroad so you do not prolong graduation. Course descriptions, photos, and more detailed descriptions of the program are available at usac.unr.edu.
