**U.S. Fish and Wildlife Service**

**Website Address:** http://www.fws.gov/cno

**Overview. Please provide a brief description and/or history of your organization.:**

The mission of the U.S. Fish and Wildlife Service is working with others to conserve, protect, and enhance fish, wildlife, plants and their habitats for the continuing benefit of the American people.

Region 8, the Pacific Southwest Region, was established in 1998 in recognition of the unique natural resource challenges facing California, Nevada and the Klamath Basin. Many of these challenges evolve from the inherently rich biodiversity of this area, coupled with many of the fastest growing communities in the nation. The Pacific-Southwest Region places decision-making at the local level, where managers can best develop partnerships with external groups and organizations that contribute to the conservation of fish, wildlife and plant resources.

**Majors Seeking:**
- Environmental Science
- Forest Management and Ecology
- Rangeland Ecology and Management
- Veterinary Science
- Wildlife Ecology and Conservation

**What level(s) are you seeking?:**
- Undergraduate
- Masters
- Ph.D.
