TBA, Center for Student Cultural Diversity Representative
James Cox, Joe Crowley Student Union Liaison

Meeting Agenda
A. 2013-2014 Charge
   a. The committee charge was given by the Associate Vice President of Student Life and the Director of the Joe Crowley Student Union.
      i. SUAB will explore what are some of the challenges to late night programming and will make recommendations to increase student participation in late night programming
         1. The committee discussed different programming targeted at specific groups, programs past midnight for residential students, and weekend programs.
         2. Marketing was brought up as an area that could be improved.
         3. The committee also discussed the effects of off campus activities and finding more programs targeted for students under 21 years of age as alternative activities.
      ii. SUAB will review and make recommendations to the existing “Joe Crowley Student Union Facility Usage Guidelines.” This includes reviewing current charges for student organizations and university departments and examining scheduling prioritization.
      iii. SUAB will identify ways to encourage student organizations to improve long term planning for events in the student union and will make recommendations to plan for events at least six months in advance.
          1. The committee acknowledges that most students do not know about the scheduling services in the student union, nor do they know how to schedule rooms.
          2. A suggestion was to target specific groups to educate them about the student union’s scheduling services, and possibly hosting a Welcome Party at the Joe.
iv. SUAB will explore and recommend ways to use technology to complement the co-curricular learning experiences in the classroom and support collaboration amongst students.
   1. A suggestion from the committee was to team up with different universities or departments to do live tutoring webcast, guest lectures, etc.

v. SUAB will review the use of space in the Student Union and address associated challenges for current campus departments.
   1. The Associate Vice President informed the committee about the Center for Student Cultural Diversity’s plan on staying in the student union instead of relocating to the new Student Achievement Center due to lack of space. He also informed the committee of the new fitness center plans. These decisions will affect the traffic pattern to the union.
   2. The committee was asked to look into a future 20-year plan on what the student union needs to do to fulfill the needs of future students.
   3. The committee suggested adding a recreational area to provide a more welcoming and relaxing environment to students.
