INSTRUCTOR	I	31,686	37,278	40,555	44,672	51,373

For employees subject to the employer-paid retirement plan, the amounts shown are reduced as provided by law (currently .91012).

The use of the medical salary schedules is dependent upon the ability of the faculty member to generate enough funds to support his/her salary through patient care. If the faculty member is in a position that does not generate sufficient funds to support his/her salary, the general academic faculty salary schedules may be used for that reason alone.
