

BARD announces a request for proposals for the following four programs:

Vaadia-BARD Postdoctoral Fellowships (January 15, 2008)

OBJECTIVES: The BARD Postdoctoral Fellowship program enables new scientists to acquire new skills and techniques while becoming professionally established in the agricultural research community. The program promotes cooperative agricultural research between postdoctoral fellows from one country (the United States or Israel) and senior scientists from the other. BARD prefers innovative research topics that are relevant to agricultural issues.

ELIGIBILITY: Citizens of the United States or Israel, who will have fulfilled all the requirements for a Ph.D. degree in their home country within three years prior to initiation of the award, are eligible to apply.

Eligibility of Dual Citizens of the USA and Israel will be considered on an individual case basis by the BARD executive; such potential applicants should contact the BARD office before applying.

Submission Date: January 15

Submit application to the BARD Israel office by e-mail: bard@bard-isus.com

guidelines can be downloaded at www.bard-isus.com

for further information contact: Lea Levin (972)-3-9683598 lea@bard-isus.com

BARD Research Fellowships (January 15, 2008)

OBJECTIVES: To promote joint agricultural research or other scientific activities between established Fellows from the United States and their Israeli counterparts.

ELIGIBILITY: Research scientists permanently affiliated with a US non-profit research institution, university, federal or state agency are eligible to apply.

Submission Date: January 15

Submit application to the BARD Israel office by e-mail: bard@bard-isus.com

guidelines can be downloaded at www.bard-isus.com

for further information contact: Lea Levin (972)-3-9683598 lea@bard-isus.com

BARD Graduate Student Fellowship (January 15, 2008)

OBJECTIVE: to enable Ph.D. students in one country (the United States or Israel) to travel to the other country (Israel or the United States) in order to acquire new skills and techniques in their field of study. The exchange will promote collaboration between scientists of both countries and expose the student to the ongoing research in the other county in the area of his/her present and future research.

ELIGIBILITY: Ph.D. students who are citizens of either the United States or Israel and who wish to conduct research in the laboratory in the other country are eligible to apply.

Submission Date: January 15

Submit application to the BARD Israel office by e-mail: bard@bard-isus.com

guidelines can be downloaded at www.bard-isus.com

for further information contact: Lea Levin (972)-3-9683598 lea@bard-isus.com

BARD Workshops (February 1, 2008)

OBJECTIVES: To identify research needs in areas of new development, to define directions and opportunities regarding contemporary agricultural needs and provide information needed to address policy issues. The workshop is intended to promote increased contact between BARD scientists and other scientists throughout the world who work in academic and industrial communities in areas related to the binational agricultural interests of BARD.

ELIGIBILITY: Scientists affiliated with public or private non-profit research institutions in the United States and Israel are eligible to apply.

Cooperation: BARD workshops are a cooperative effort of scientists from both the United States and Israel. The proposal is to be submitted jointly, by at least one scientist from each country.

Submission Date *February 1.*
