Criteria for UNR Outstanding Researcher

Nominations

Nominations may be submitted by any member of the faculty. Additional nominations will be sought from colleges. The nominees will be evaluated based on their records and the supporting materials regardless of the nominating source. A letter of nomination and current curriculum vitae should be submitted to the Vice President for Research, Ross Hall 201, and Mail Stop 403 by **February 1**.

- a. The nomination letter must indicate the significance (the nominee's contribution to and impact upon their field of study), volume and quality of the nominee's research in such a way as to clarify the nominee's activities for individuals from other disciplines.
- b. The letter must show that a substantial amount of work has been accomplished with recognition given to UNR.
- c. The letter must demonstrate clear evidence of the national or international stature of the nominee's research. The evidence should reflect recognized evaluations in the form of critically reviewed papers, presentations, books, monographs, and other forms of scholarly activity or recognition (e.g., invited presentations, awards, honors). A complete listing of these should be provided in the nominee's curriculum vitae, which must be attached to the letter of nomination.
- d. A copy of the nominee's complete curriculum vitae must be attached. It should list all the nominee's publications and clearly highlight the peer reviewed work.
- e. In areas where research grants and contracts are an important part of the research effort, there must be clear evidence that the nominee has been competitive for such grants at the national and/or international level.
- f. The committee will consider the quality of the nominee's work over his or her academic career.

Re-nomination

Nominees from the previous four years will be automatically re-nominated. Each nominee will be notified and requested to submit updated application materials prior to the next year's nomination deadline.

Supplementary Materials:

Each nominee will be asked at a later date to provide the following additional information:

- a. No more than **three** examples (reprints or copies) of significant published works that the nominee feels are representative of his or her research accomplishments.
- b. A list of grants and contracts received, indicating the project title, name of grantor, amount of grant, beginning and termination dates, and the nature of the competition for the grant.
- c. A list of students and post-doctoral fellows who worked with the nominee on research projects. For each individual indicate if she/he was a post-doctoral fellow or a student pursuing a doctoral, masters, or undergraduate degree.
- d. No more than three reviews, adjudications or testimonials conferred by persons who audited the original work.
- e. No more than **three** letters of support from persons **external** to UNR who are knowledgeable of the nominee's qualifications. The letters should be from persons who are independent of the nominee (e.g., they should not be their students or mentors) and should evaluate the nominee's contribution to and impact upon their field of study.
- f. Names, addresses, and phone numbers of up to three additional persons **outside** the UNR whom the committee may contact about the nominee's achievements.
