Our mission is to create, enhance and preserve great mountain biking experiences.
IMBA have been working with Caliente and Lincoln County based land managers and public officials for over two years to plan and design a purpose built mountain bike trail network, which serves as both a community resource for local residents and acts as an economic engine to attract visitors to the area.
• 2012-2013 - meetings with BLM, County Commission, Mayor & City Council and Nevada State Parks. Initial scoping of the terrain by IMBA Trail Specialist

• 2014 – further meetings and presentations. Funding secured for conceptual planning. 41 + miles currently flagged and mapped

• 2015 – partnership meeting and funding proposals submitted
• City of Caliente recommended for funding of $495,000 from SNPLMA. Funding requested for up to five miles of trail on city land, a mountain bike ‘pump-track’ and parking.

• Application has been made to the RTP for $198,423 with $50,387 in matching in-kind and state funds. Project scheduled for presentation on April 30th, where recommendations will be made. This would be for trails at Kershaw Ryan State Park.
• Mountain bikers contribute an estimated $25 million to the Fruita, Colo. Economy, approximately 15% of the annual budget for Mesa County\(^1\)

• In 2010, mountain bike trails at Raystown Lake, Penn. attracted more than 25,000 visitors, 2.5 times more than predicted. Visiting riders spent on average $98 for a day visit, and $227 for an overnight visit. Mountain bikers brought $1.2 million in spending to the region\(^2\)

• The Intrepid Trails system in Grand County, Utah brought in $25,000 in state park revenue in its first year open (2009). The same year 179,157 people visited Dead Horse Point State Park producing an economic impact of $4.1 million\(^3\)
