“Most apocalyptic warnings focus on oil, but there's an even more frightening and immediate problem looming on the horizon: a **Water Crisis.**”
The Problem
Quantity & Quality

• Worldwide Shortage
  – Food
    • Weather
    • Pest
    • Contamination
  – Water
    • Contamination
    • Global warming
  – Energy

• Worldwide Quality
  – Food
  – Water
  – Energy
Water Solutions are Coming, But are they Fast Enough?
Agri-Solutions are Coming, But are they Fast Enough?

- Year-Round Agriculture
- Extended Growing Season
- New Technology Model
- Enable Modular Control
- Remote Monitoring
Energy Solutions are Coming, But are they Fast Enough?
