About the Online EMBA

Designed to accommodate the schedules of mid-career executives and experienced professionals, the Executive Master of Business Administration (EMBA) program is offered online, allowing professionals to continue working while earning their EMBA.

All courses are taught by the University’s premier business faculty who will share their real-world expertise, teach executive leadership by integration of knowledge, skills and experience, and encourage application of theoretical solutions to real-world business challenges. The program focuses on managerial skills in problem identification and analysis, and application of those managerial skills to discovery of effective solutions.

Graduates of the EMBA program will gain knowledge and skills to:

• Lead organizations
• Tackle new and unfamiliar circumstances using a conceptual understanding of relevant disciplines
• Adapt and innovate to cope with unforeseen events
• Manage in unpredictable business environments

With a blend of theory and practice that integrates professional experiences with a graduate-level academic management curriculum, the EMBA program provides a general management emphasis suited to the needs of mid-career executives and experienced professionals. The program familiarizes students with cutting-edge issues of business disciplines for managerial decision-making, and crystallizes the philosophy and capabilities of experienced professionals, fostering professional growth.

Class Format

The online, 12-course curriculum is offered as a two-year cohort program beginning each Fall semester. This allows students in each cohort to begin the program at the same point, move through the curriculum together, and build supportive working relationships in a stimulating online environment. Courses in the EMBA program are sequenced to assure continuity in learning.

All coursework is completed online. For each class, students will have at least one proctored exam, which can be taken in your area. EMBA students are required to complete their degrees in two years.

For more than half a century, our College of Business faculty have used their passion for teaching, relied on their expertise in working with organizations throughout the country and developed an ambitious research agenda to help educate more than 10,000 business graduates — providing them with the judgment and skill set needed for a rapidly changing business world.
Admission Requirements
The EMBA program is open to those who hold a bachelor’s degree from an accredited four-year institution. Any undergraduate major is acceptable. In addition, the minimum standards for admission to the EMBA in the College of Business require:

• The applicant must have an overall grade-point average (GPA) of at least 2.75 on a 4.0 scale.
• The applicant must have five or more years of professional work experience beyond undergraduate studies.
• The official report of the Graduate Management Admission Test (GMAT) or the Graduate Record Exam (GRE). If you have taken the LSAT, it will be accepted in lieu of the GMAT/GRE for admission to the program.

The primary concern for admission is a candidate’s fitness for graduate study and promise of effective business performance. A judgment of these qualities is made from the applicant’s:

• Undergraduate record
• Results of the GMAT, GRE or LSAT
• Letters of recommendation
• Written personal statement indicating the candidate’s educational and career objectives*
• Résumé detailing professional experience

*Applicants will be expected to demonstrate proficiency in oral and written communication in English. To fulfill the written communication requirement, applicants must submit a written statement indicating their educational and career objectives, along with other writing samples they may wish to have considered.

Tuition and Fees
The 12-course online Executive MBA is competitively priced at $24,000, payable in installments of $4,000 each semester. Please see the website for complete information about fees.
