Internship Site Information

Applied Behavior Technologies provides social skills training, social skills training groups and home applied behavior analysis for children and adolescents with autism and other intellectual disabilities. The intern will provide assistance with social skills groups 3 evenings per week during the hours 5pm-8pm. The candidate will receive 40 hours of intensive training by our facility and then be expected to apply for and pass the RBT examination. The fee for the examination will be paid by the facility. The intern will assist the BCBA in conducting social skills training programs during social skills groups as well as have the opportunity to conduct 1 on 1 ABA therapy sessions in the facility as well as the home. Additionally, the intern will have the opportunity to engage in behavior analytic activities such as data graphing, program development and stimuli creation.

**Number of Internships Available:** 2

Student Requirements

1. The student will have to pass a background check at the cost of the facility.

2. The student must have completed 2 years of college coursework with a minimum GPA of 2.75

3. Applicant must have a genuine interest in working with adolescents and demonstrate compassion for individuals with intellectual disabilities and their families.

4. The applicant should be seeking an education in the field of applied behavior analysis or an associated field in which the training is applicable.

**How will student obtain this internship?**
