UNR Early Head Start is a federally funded program that serves children and families birth to 3 years who live in poverty. Early Head Start provides comprehensive early care and education services through home based and center based services. There are many opportunities for interns to gain experience working directly with families planning and implementing curriculum in classroom and home settings. Additionally, interns gain knowledge and experience in assessing children's development, health and nutrition, and families' strengths and needs. There also are opportunities to gain experience in administering programs, aggregating and analyzing data, community resource and referral, setting goals with families, and conducting case studies. Interns meet weekly with the intern supervisor.

Internship Site Information:

Student Requirements:

1. Empathetic to individual family circumstances and willingness to help.
2. Ability to work with a variety of families and in a variety of setting that may challenge personal values.
3. Must be highly responsible and reliable.
4. Willing to get a TB test and Background Check at no cost to the student.
5. Flexibility in daily task assignments.
