TECC Minutes
5/9/14

Attending: Harrison, Burnham, Quinn, Cannon (for Crowther), Abernathy-Vineyard

Excused: Horvath

Meeting was called to order by Harrison, and the minutes were approved as read.

The Committee reviewed Secondary Education’s integration of technology into existing course syllabi. TECC recommended that Secondary do a cross-walk with technology standards so that the infusion is easy to see. It was agreed upon by the Committee.

It was suggested that the appeal for student teaching concerns, while in place and involves multiple perspectives including the cooperating teacher, Dr. Sedgwick, the university supervisor and the candidate’s advisor, needs to be codified. Harrison will speak with Dr. Sedgwick to see if/when that can happen.

Discussion about the changes to the TECC Governance structure took place, and decisions were made about its place in the organizational chart. It was moved and passed that the committee be placed under the Associate Dean and have the following membership configuration for the TECC working group:

   Program Coordinators or designates from: HDFS, EL, Literacy, ELL, Special Education, Field-based faculty (elementary and Special Ed), Advisement, and Office of Field Experience.

Discussion about the placement of IETP was discussed. It was moved and passed that the IETP would be placed under the Associate Dean (who is an Ex Officio member) on the organizational chart, that the Associate Dean would be responsible for the Program Review and that meetings between the Associate Dean and the 2 Division Heads would need to take place to discuss resource issues. Dr. Burnham would no longer be on the IETP due to her being the Director of TEHD. She would be able to attend meetings.

The meeting was adjourned at 330.
