Internship Site Information

Aleph Academy is an early childhood facility that strives to be a model of excellence in all aspects of early childhood care and education. We are participants of QRIS, Healthy Way to Grow and are a NV TACSEI Demonstration site. Aleph Academy is a non-profit program that serves children and families 1 to 5 years of age with the goal of being a model of excellence in the field of early childhood education. We focus on the arts and nature to give children a multi-faceted approach to learning.

There are many opportunities for our intern to gain experience in administration or working directly with children and their families, planning and implementing curriculum both in the classrooms and in our natural playscape outside. Additionally, interns gain knowledge and experience with children's development, health and nutrition, and building relationships with families.

This internship is designed for someone who is committed to the field of early childhood education and wants to experience a quality early childhood education program. Intern will meet weekly with the intern supervisor.

**Number of Internships Available:** 2

**Student Requirements**
