This teaching major has been developed by the College of Education. Any substitutions/waivers of requirements for this teaching major and the required methods course must have the written approval of the Secondary Education Faculty. Always bring this status sheet and your program manual to advisement appointments.

Note: Additional upper division electives will be required beyond major to meet the COE requirement of 40 hours.

Note: Credits given for technical course work in any of these plans cannot be transferred to any other Bachelor of Science degree program at the University. General studies and other education course requirements that are required of all secondary education majors must also be met.

**MAJOR** (36 credits with a 2.5 GPA is required)

1. **Plan A:** The student transferred a minimum of 36 credits of technical course work from an accredited institution that directly applies to a Nevada Trade and Industrial Education teaching endorsement.

   **Plan B:** The student transferred a community college associate degree containing technical course work that directly applies to a Nevada Trade and Industrial Education teaching endorsement.

   **Plan C:** The student has verified a minimum of five years of employment at the journeyman level in a trade that directly applies to a Nevada Trade and Industrial Education teaching endorsement, and has successfully completed the appropriate occupational competency exam(s) available through the National Occupational Competency Testing Institute.

2. **Required Professional Occupational Education courses (9 cr.)**
