The College of Science

The College of Education

• With the NevadaTeach program, students majoring in Biology, Chemistry, Math or Physics can earn a teaching certificate at the same time that they are earning a degree in their STEM major.

• Incoming freshman students in the NevadaTeach program can earn two degrees in four years.

• NevadaTeach students will have more career options after they graduate. You can be a secondary science or math teacher OR you can still apply to graduate or professional schools with applications that will set you apart from traditional STEM degree candidates.
