WELCOME 2009

On behalf of Washington State University, I would like to welcome you to the 36th Annual Conference of the Western Regional Honors Council. Our theme this year is “Pathways to Preservation, Sustainability, and Renewal.” We are very pleased to host the conference at the Davenport Hotel, which has been committed to environmental protection and sustainability for over 90 years. The “historically green” link on the hotel website provides information regarding numerous initiatives undertaken by the Davenport related to energy efficiency.

During the conference, you will enjoy oral presentations and posters by more than 160 participants. The presentations have been organized in seven “strands” which include the following broad topics – Race and Gender; Art and Literature; Environment and Sustainability (2 strands); Honors and Teaching; Science and Technology; and Leadership and Learning. The planning committee made every effort to make certain that presentations were placed in the appropriate strand, as space allowed. The poster presentations will be on Saturday morning from 8:00-9:30 a.m. Our conference will conclude with a Saturday luncheon including our keynote speaker, Professor M. Grant Norton, whose talk is entitled “Nanotechnology: The Power to Fuel an Energy Revolution.”

I would like to thank our conference planner, Linda Kildew, for all of her efforts to make this an enjoyable and rewarding experience for our guests. Thanks also to Julian Reyes, Lauren Carter, Brian Carlton, Amy Van Nortwick, Renee Walker, Alan Emanuel, Brittany Navarre, Gianne Souza, Laurissa Hale, Leah Rosenkranz, and Ainsley Nix – WSU Honors students who have volunteered to serve as moderators.

Welcome to the conference!
We hope you enjoy your time in Spokane!

Libby Walker
Interim Dean and Conference Chair
Western Regional Conference
HONORS
Pathways to Preservation, Sustainability, and Renewal

SCHEDULE AT-A GLANCE
March 5-7, 2009

Thursday, March 5
3:00-7:00 pm Registration
7:00-9:00 pm Welcome Reception and Student Function
8:00-9:00pm Dean’s & Directors’ Reception

Friday, March 6
7:00am-4:00pm Registration Continues
7:00am-8:00am Continental Breakfast
8:00am-8:20am Welcome Session
8:30am-9:30am Presentation Session 1
9:30am-9:45am Break
9:45am  Davenport Tour (sign up at registration desk)
9:45am-10:45am Presentation Session 2
11:00am-12:00pm Presentation Session 3
12:00pm-1:00pm Lunch on your own
1:00pm-2:00pm Presentation Session 4
2:15pm-3:15pm Presentation Session 5
3:15pm-3:45pm Break
3:45pm  Davenport Tour (sign up at registration desk)
3:45pm-4:45pm Presentation Session 6
5:00pm-7:00pm Scribendi Reception
7:00pm  Dinner on your own

Saturday, March 7
8:00am-11:00am Registration Continues
8:00am-9:30am Poster session and Continental Breakfast
9:00am-10:30am WRHC Business Meeting
9:30am-10:30am Presentation Session 7
10:45am-11:45pm Presentation Session 8
12:15pm-2:00pm Luncheon with Keynote Speaker, Conference Closing
Tour

You will receive a copy of “The Davenport Hotel—History Walking Tour” when you register for the conference. You will also have a chance to take a tour with the Davenport’s docent. Sign up when you at the Registration Desk!
GENERAL INFORMATION

WRHC REGISTRATION AND INFORMATION TABLE

Please check in with the WRHC Registration and Information Table at Registration on the Mezzanine, 2nd floor of The Davenport Hotel to obtain your conference badge, program, and other conference materials.

Thursday, Friday, and Saturday Registration will take place on the Mezzanine.

Staff and Conference Volunteers will be available at the WRHC Registration and Information Table throughout the conference to answer your questions or assist with conference-related matters.

CONFERENCE BADGES & LUNCHEON TICKETS

Conference attendees must wear their official conference badges to be admitted to conference events, including all meals, all sessions, and all special venues. Badges may not be transferred. Replacing lost badges requires an additional fee of $5.00 that must be paid at the time the badge is replaced. Your badge also allows you the special attendee parking rate. Be prepared to show your badge to receive this rate when enter/exit the parking garage.

MESSAGE BOARD

A message board will be located near the WRHC Registration and Information Table for postings by conference attendees.

EMERGENCY CONTACT INFORMATION

In the event of an emergency at the conference site, please pick up any house phone.

ABOUT THE WRHC

The Western Regional Honors Council (WRHC) is a professional organization of faculty, administrators, and students dedicated to the promotion and advancement of undergraduate honors education. The WRHC represents honors programs in universities across the Western region.

The objective of this council shall be the promotion and advancement of honors and similar programs in Western colleges and universities.

ABOUT THE WSU HONORS COLLEGE

For nearly 50 years, Honors has offered an enriched liberal arts curriculum within an international context. Undergraduates seeking challenges can optimize their academic experience.

The Honors College is a unique entity at WSU that offers a liberal arts education within the larger research environment of the university. The Honors program and professors deliver a rigorous academic experience that can open doors to the most prestigious graduate and professional programs and careers nationwide.
SPECIAL CONFERENCE EVENTS AND FEATURES

Opening Reception

The Opening Reception will be held from 7:00-9:00 p.m. on Thursday, March 5th, in The Isabella Ballroom of The Davenport Hotel. You will enjoy the hotel’s award-winning chocolates and have a chance to meet with your fellow conference-goers. A student get-together will follow the formal reception.

Scribendi Reception

The annual Scribendi Reception will be held from 5:00pm-7:00pm on Friday, March 6th in the Marie Antoinette room. This is your chance to honor the WRHC students whose work will be published in this year’s edition of Scribendi.

Dean’s & Directors’ Reception

As the WRHC Conference is the only time each year most of us have a chance to visit with each other, I would like to cordially invite you to a Dean’s and Directors’ Reception which will be held on Thursday night from 8:00-9:00 p.m. in the Porter Room. The Welcome Reception for the conference will begin at 7:00 in the Isabella Room and include a presentation by the docent of the Davenport Hotel. At 8:00, the WSU students will host a student function which will last approximately one hour in that same room.

Our reception will take place during this hour in the Porter Room. This will be a wine and cheese reception with alternative beverages also provided.

Please be my guest during this time if your schedule permits.

Poster Session

The Poster Session will be held on Saturday, March 7, from 8:00 am-9:30am in the Isabella room.

Luncheon with Keynote Speaker, Dr. M. Grant Norton

Dr. M. Grant Norton, Associate Professor in the Washington State University College of Engineering and Architecture, will be our keynote speaker. The luncheon will be at noon on Saturday, March 7th, in the Marie Antoinette room.

Thank You’s

We would like to thank our sponsors and Spokane contributors:

- Robert Karl Cellars
- Z Promotions & Apparel
- The Davenport Hotel Candy Shoppe
- FedEx Kinko’s Downtown
M. Grant Norton is Westinghouse Distinguished Professor of Materials Science and Engineering in the School of Mechanical and Materials Engineering at Washington State University and serves as Associate Dean of Research and Graduate Programs in the College of Engineering and Architecture. Professor Norton obtained his PhD in Materials from Imperial College, London and spent a two-year postdoctoral at Cornell University before joining the Washington State University faculty in 1991. In 2003 and 2004 he was an AFOSR Faculty Research Associate at Wright-Patterson Air Force Base and spent the 1999/2000 academic year as a Visiting Professor at Oxford University. From 2000 to 2005 Professor Norton was Chair of Materials Science at Washington State University. He is author or co-author of over 160 papers in the archival literature, several book chapters, and two textbooks, one on X-ray diffraction and most recently *Ceramic Materials: Science and Engineering*, published by Springer. Professor Norton serves as Deputy Editor-in-Chief of *Journal of Materials Science*, is on the International Editorial Board *Journal of Materials Education*, and is on the Editorial Board of *Journal of Nanotechnology*. The National Science Foundation, Boeing Commercial Airplane Company, and REC Silicon are currently sponsoring Professor Norton’s research. Prior to entering academia, Norton worked for two major European multinationals. He has consulted for a number of companies and organizations, including an interesting project on the World War II memorial in Washington D.C. He recently formed GoNano Technologies, Inc., a university spin off company focused on alternative energy applications for nanomaterials.

FRIDAY, MARCH 6, 2009

Session One: 8:30am-9:30am

Funmilayo Akinmulero
San Diego State University
Renewing the American Dream for Black Males

This presentation will analyze and discuss the types of sociological variables which create higher susceptibility to committing crime in African American males in the United States. In addition it will argue for increased government and community involvement to improve the socioeconomic status and access to education for African American males.

Pearl Griffin
Central Washington University
Balance of Class

Cervantes uses his novel Don Quixote to comment on the social extremes that caused so much grief between classes during his time. The extremely opposite behavior and beliefs of Sancho Panza and Don Quixote illustrate what happens when characteristics that should complement each other work against each other and accomplish nothing. Moderation is necessary not only within a person, but also within society.

Chris Bentley
Jason Loveless
Weber State University
Going Beyond the “Go Green” Craze

Do you wish that your campus could be more environmentally friendly but feel like you’re lacking some of the skills, information, and motivation to be a strong advocate for that change? In this workshop, participants will learn all the basics necessary to implement programs designed to help campuses go green!

Sasha Anderson
Joy Buchanan
Chapman University
The Second Big Bang: An Examination of the Modern Explosion in Population and World Income

Our presentation provides a critical examination of the economic takeoff of the 19th Century and the implications for growth in the future. We will offer explanations for the increase in income and its relation to the rise in population. Is this model of growth sustainable?
Sustainability Integrated into Honors

The Honors Program is engaged in an initiative to develop both curricular and extracurricular opportunities to promote environmental literacy and to offer practical experience in sustainable projects for our community of students and faculty.

This Car Runs on Cyanobacteria

Cyanobacteria photosynthesize in order to produce lipids in their thylakoid membranes. These fats have the highest capacity for energy on the planet. Researchers at Arizona State University are attempting to maximize fat production in the bacterium, extract the fats, and refine the fats into a renewable source of biodiesel fuel.

Milton in the Founding Documents of the United States (Pearce)

This session explores the impact of the political and social ideas of John Milton on the development of Western democracy. Milton’s humanist theology emphasized free will and personal responsibility. In turn, his political theories promoted democratic institutions in the face of hegemony.

Milton and the Question of Free Will (Taylor)

Milton’s program of theodicy in Paradise Lost includes his stance on the central theological and political debate of the period: Do human beings have free will? In Book III God speaks of the coming Fall as inevitable but nonetheless freely chosen, declaring that his “Foreknowledge had no influence on their fault” (3.118). This statement, derived from Boethius, opposes the Calvinist position which negates free will. Milton had spent years working toward a commonwealth that insisted that people could govern themselves. Today, our democracies enshrine the concepts of self-government and personal responsibility. Milton’s epic employs this Boethian motif against the powerful who had marginalized him and declared humanity worthy only of submission to power and despair at damnation for all but the chosen few. If today we miss this subtle assertion of free will and human dignity, it is perhaps because we have inherited a world that Milton’s eloquence helped create.

Milton’s Areopagitica and the First Amendment (Tat Sang So)

Milton’s basic defense of freedom of the press in Areopagitica rests on a simple faith that truth will out in the marketplace of ideas. This resembles the most reliable arguments in favor of American free speech, the recognition that though universal free speech makes us subject to endless errors and frivolities, it is still the only guarantee that eventually someone will write the truth. Milton’s treatise on freedom of the press, written to argue against a system of ecclesiastical and academic licensing, addresses a climate different from anything in the American experience, where political rather than religious speech seems to be the focus. Yet the First Amendment of the Constitution preserves Milton’s legacy by lumping together what at first seem to be unrelated freedoms, relating freedom of religion to freedom of speech and the press in one continuous train of thought.
Lawrence Cisneros  
San Diego State University ................................................................. Flowerfield Room

**Racial background and judicial elections: Determining the voting patterns of minority state Supreme Court justices**

This presentation extrapolates the research on gender effects to race in order to determine if the racial background of justices influences state Supreme Courts decisions. I will present the study’s findings on whether white justices differ from non-white justices in their decision making, while accounting for whether the justices are appointed or elected.

Katie McNey  
Brigham Young University ................................................................. Lincoln Room

**Eleanor of Aquitaine: Preservation and Renewal of an Ideal**

Based on my Honors thesis research, my presentation will argue for Eleanor of Aquitaine’s literary patronage as well as her influence on subsequent European female rulers, such as Elizabeth I, making the case for the historical preservation of her image and the imitation of her precedent in the renewal of patronage practices.

Travis J. Beckett  
Jacob D. Washburn  
Bryan G. Hopkins  
Brigham Young University ................................................................. Elizabethan Room B

**Cropping Systems: Soil Sustainability vs. Profit**

Sustainable agricultural practices help preserve the world’s limited resources. However, financial pressures sometimes force growers to use methods that decrease field sustainability, such as shorter crop rotations. The objective of this project is to show how long crop rotations for potatoes can maintain field sustainability and produce a profit.

Brian Reschke  
Brigham Young University ................................................................. Isabella Room

**Team HSAC: Preserving, sustaining and Renewing Honors Program Participation**

This presentation will cover specifically the implementation, organization, and management of Team HSAC, as well as highlight student experiences in the current academic year. The principles of this program will help other university honors programs preserve participation of current students, sustain HSAC enthusiasm, and renew student interest in the honors community.

Brittany M. Navarre  
Washington State University ............................................................... Porter Room

**Sucrose Preference as a Measure of Anhedonia in Postpartum Rats**

Our research involves the use of a rodent model of pregnancy to characterize potential causes of postpartum depression. Specifically, our goal is to determine the role of postpartum estradiol withdrawal in precipitating depression-like symptoms. Such knowledge is clinically important for determining how to best treat postpartum depression in women.
Session Two: 9:45am-10:45am

Melissa A. Johnson
Central Washington University

Incorporating Film into the Women’s Studies Classroom

When teaching “Introduction to Women’s Studies” I integrate film into the theoretical, historical, sociological, and anthropological discussion. In my presentation I will explore the benefits of using film to teach women’s studies, the materials and resources I find useful, and the challenges I face in using this method.

Daniel Bulone
Chapman University

November’s Novel of the Month: The How's and Why's of Writing a 50,000-Word Book in 30 Days

Every November, thousands of people start writing novels. National Novel-Writing Month is an underground phenomenon that dares people across the world to write a 50,000-word novel within 30 days. I will trace its history, visit local gatherings of participating authors, and attempt to write my own novel in the process.

Gloria Jean Gong
Brigham Young University

China’s Compliance with International Climate Change Treaties: What Does Changing Policy Imply for Future Consensus?

China’s rapid economic rise has been breathtaking and is inseparably connected to increased greenhouse gas emissions. What factors influence China’s possible participation in a binding greenhouse gas emissions treaty? By examining China’s current policies and international treaty participation, this study hopes to provide insight into China’s climate change policy trajectory.

Lauren Young
Washington State University

Easter Island: Degradation of Soil and Society

We have all heard of the cannibalistic ways of the Easter Islanders, but how did they reach those dire circumstances? Fertile soil is necessary to grow crops to support population and civilized society. The decline of Easter Island can be mapped by the degradation of its soils. A comparative evaluation of the deforestation of Easter Island show that the two are very connected.
Publishing Outside the Box: Student Mentorship in Editing

With the appointment of two new and experienced student editors, the BYU Honors program has revamped and revitalized its publications to increase their appeal. More student input, fresh formats, and appealing layouts give new life to established publication traditions while sustaining an innovative editing approach.

A Digital Economy: Laws of Economics in a Digital World

As our property becomes digital--music and movies, for example--value, property, and assets need to be redefined for the digital era. Online distribution is cheap, and goods are virtually free to reproduce. What is the future of our economy--and will it accommodate a healthy digital marketplace?

Squeezing the Juice Out of Juicy Campus: The Truth Behind College Gossip

An epidemic has erupted on college campuses. No one is immune. Whispering secrets in the cafeteria is so last year! With technological advances, gossip travels quicker and is readily available without anyone knowing you started it! Unfortunately, there is no vaccine for JuicyCampus.com. Bring your opinions and join the discussion.

A Feminist Critique of the French films "Cesar et Rosalie" and "Madame Bovary"

This presentation examines the roles and presentation of women in two French films, Claude Sautet's "Cesar et Rosalie" (1973) and Claude Chabrol's "Madame Bovary" (1991). Explored historically, cinematographically, and literally, these two films demonstrate the continued importance of feminism and self-awareness in a world that is constantly imposing rules on us.

Toupee on my ų: Oral Histories and Poetry

Adam Nunez’ poetry interprets over seventy years of his family’s memories. His work channels oral histories into poems that wed the truths of memory and interpretation, allowing him to connect with his family’s past on a sociological and personal level.
Brian Carlton  
Washington State University ........................................................................................................ Lincoln Room  
**Ocean Energy Technology and its Application in China**

The demand for energy in China is great, but so is the call for sustainability. One way China hopes to increase energy production while at the same time decrease pollution is through renewable technologies. One renewable technology, that of generating electricity from the ocean, has long been a topic of debate in China even before it was seriously discussed in Europe. This paper will examine the history of ocean energy technology in China, its present state and roll in the Chinese electricity grid, as well as future projects.

Ellie Hipple  
Azuza Pacific University ........................................................................................................... Elizabethan Room A  
**Ocean Energy Technology and its Application in China**

Half of all people in developing countries are suffering from health problems caused by lack of water and sanitation. Improvements in these areas will advance the lives of the poor in regards to health, safety, education, and economics. This presentation describes the global and local solutions to these preventable problems.

Bryan Schroeder  
University of New Mexico ................................................................................................... Elizabethan Room B  
**Scribendi Magazine on the Web: An Analysis of Literary Magazine Web Site Effectiveness and Legal Issues**

A literary magazine’s Web site can be an effective tool for promoting and enhancing the magazine. This presentation will discuss methods by which a literary magazine’s Web site can be made as effective as possible, using Scribendi magazine as a basis.

Mike Moceri  
Central Washington University .............................................................................................. Isabella Room  
**The Transcendence of Virtual Minds**

My presentation, *The Transcendence of Digital Minds*, is based upon John Searle's 1980 essay titled "Minds, Brains and Programs." Through an analysis of the distinction between symbol manipulation and symbol recognition, my presentation aims to show that connectionist networks are able to comprehend semantic data, and therefore may exhibit consciousness.

Dana Quadri

**Caring Because It's Cool**

Rock the Vote. Save Darfur. Slogans about these organizations and others are splashed on T-shirts, bracelets and bags. Has the collegiate social scene turned the world's most devastating problems into the latest fashion statements? Come learn more as we delve into this materialistic approach to social awareness.
Brandon Bearden  
Mesa State College  
**Another Evolution in Thought: The Emerging Paradigm Shift That Will Abolish Racism**  

In the coming centuries, so far removed from everyday thought, racism will be all but a footnote in the history books; a fascination to some, amazed at how people could have been so ignorant. Racism will end; it is just a matter of time.

Sarah Contresas  
Central Arizona College  
**The Beauty Equation: Human Perception and the Golden Ratio**  

Based on the results of a survey given, this presentation will address the question: *Can Beauty Be Equated?* The results of this survey offer interesting insights into the human nature and the connection between mathematics and the natural world as the Golden Ration and Dr. Stephen Marquardt’s, “beauty mask” is explored.

Rachael Dailey Goodwin  
Brigham Young University  
**NON-GOVERNMENTAL ORGANIZATIONS & GOVERNMENT RELATIONS IN ETHIOPIA: ARE NON-GOVERNMENTAL ORGANIZATIONS PROMOTING DEPENDENCY RATHER THAN SUSTAINABILITY?**  

Ethiopia is a country rich in natural resources and poor in economy, infrastructure, and leadership. The economic stability of Ethiopia has declined despite the increase of non-governmental organizations operating in Ethiopia. Are NGOs promoting dependency rather than sustainability? While NGOs and the government point fingers at each other, the Ethiopian people continue to suffer.

**Sustaining Sovereignty in a World of Inequalities**  

Sovereign equality, a core principle of the international system, means that states have the right to order their internal politics as they see fit. But inequalities can undermine sovereign equality by depriving political communities of the ability to be self-governing. Under conditions of economic, political, and military inequality, the papers of this panel ask whether the rights of political communities and the well-being of individuals within them can be sustained.
Through the Looking Glass: From Home School to College

What is it like to transition from home-taught education, to a college education? Come hear from a home school student’s perspective what has been difficult, or easy, and how an Honors Program has helped ease the transition between two separate worlds.

GTPase Involvement in Cancer

Cancer research is an important focus for the scientific community. As a disease of unchecked cell growth, a better understanding of cellular function is vital to develop new and more effective cancer treatments. The study of proteins that regulate cell growth is necessary and is the subject of this research.

Inside America’s “Best Idea”: National Parks as our Campus, Classroom & Text Book

Let’s face it, everyone wants to make the most of their short time in college, especially Honors students. Find out how honors students can invigorate their minds, tone their bodies, and enliven their senses through academic adventures sponsored by NCHC’s Partners in the Parks program. Come learn the amazing things that have happened and can happen when you study in a classroom without walls.

Gaining Perspective: An Examination of Male Body Image and Eating Disorders

The area of male body image and eating disorders is growing and becoming more complex. A discussion of the current confounds of classification and the implications for the rising prevalence of the issues will be introduced. An exploration of future research possibilities in the field will be considered.

Genesis: The Flaws of a “Benevolent” God

My presentation will show that, though God in the Old Testament claims He is benevolent, evidence from the text proves otherwise. By examining God’s human flaws I will prove that God is wrathful and envious. God’s human emotions stem from the fact that humans created God in their image.

Economic Globalization and the Limiting Effect on Sustainability Efforts

Environmental and social sustainability require global cooperation and compassion towards making a difference; however, economic globalization has permeated the international community with an incompatible mindset, infatuated with the development of economic growth and indifferent toward social and environmental issues, thus hindering efforts against poverty, inequality and environmental degradation.

Chapman University ................................................................................................................. Porter Room

It's Alive!: The Re-re-re-re-re-reanimation of Frankenstein

Admit it. You thought you knew the story of Frankenstein before you picked up the book. After all, it's become a modern myth and everybody has heard one version or another. This presentation examines why Frankenstein and his creation are still alive and how adaptations keep the story relevant.
Is Sustainable Urbanism a Viable Solution to Suburban Sprawl? A Critique of Douglas Farr’s Sustainable Urbanism

Sprawl is detrimental to American society and has led to many social, environmental, and economic problems. Douglas Farr’s new book, Sustainable Urbanism: Urban Design with Nature outlines strategies which will serve to be more successful in halting suburban sprawl than previous attempts because of the broader scope of topics introduced.

California Oil: California Black Gold

In the film, There Will Be Blood, the audience is treated to a fictionalized version of oil drilling in California. However, drilling in the West occurred in a slightly different way. This presentation will compare and contrast the history of drilling and the fictionalized version in There Will Be Blood.

A Great Kickoff to a Great Weber Year

Each fall the Honors Program and Student Advisory Board (HSAB) sponsor a Fall Kickoff Picnic. This picnic is the way in which we introduce new students to the program, introduce faculty and administration and revitalize our returning students. Beginning in early summer the Honors staff and student advisory board carefully strategize ways to make our picnic a success and introduce and involve students in activities planned for the upcoming year.

pWn’d! A Newbs Guide to the Interwebz

Our ways of communication and living have radically changed in the last five years, mainly due to the expansive interaction available through the Internet. This presentation will take a hard look at the Internet, its different applications and the social deconstruction it has caused in the up-and-coming generation.

The Contrary God

My paper shows that the God of the Old Testament is incompatible with the God of the New Testament. The Old Testament God is violent and manipulative, while the New Testament God is kind and just. These two views on God are inconsistent and incompatible.
Jessica Linder  
Central Washington University  

**Breaking Marginalization**

Within patriarchal views of women, women are normally described as being consumed by emotions, lacking rationality, and unable to control their sexuality. The women in Thomas More’s *Utopia*, Viola in Shakespeare’s *Twelfth Night*, and Portia in Shakespeare’s *Merchant of Venice* demonstrate that women are nothing like the male defined personalities.

Becky Hughes  
Chapman University

**Bedtime Stories: Scare or Soothe? An examination of the evolution of fairytales**

Bedtime stories have been told to children for centuries. We know them as sweet tales to lull a child to sleep, but the tales of old were very different from the ones we know today. The question is, why have they changed and what is their purpose?

Daniel Bedford  
Weber State University

**Getting Out of the Classroom and Into the Great Salt Lake**

This presentation, by faculty and students, examines the unique opportunities and challenges encountered in studying the Great Salt Lake. The lake is well suited to interdisciplinary approaches, and is close enough to the Weber State University campus to allow field trips and experiential pedagogy to be integral course components.

Jennifer Bose  
GateWay Community College

**Environmental Sustainability in the Home and Campus: A Prescription for Change**

This 25-minute presentation will chronicle the emergence of a campus project, “Go Green Gateway,” which, after approximately five years of failed attempts to enact change, delivered a sustainable program resulting in monetary gains for the campus as well as increased student awareness of environmental issues and innovations in environmentally-conscious technologies.

Nathan Thomas  
Central Washington University

**The Hebrew God and Sin: A Different Perspective Regarding What the Hebrew Scriptures Say**

This paper is an exploration into what the Hebrew Bible, or Christian Old Testament, suggests sin is, according to the perspective of the God of the Hebrews. The investigation brings up interesting views that may lie contrary to what sin is typically known as in these contexts.
Session Five: 2:15pm-3:15pm

Jackie Smith
Mesa State College

From the Queen Bee to the Wanna Bee—How Women Talk in Relation to Social Hierarchies

Have you ever listened to how women talk? What’s more interesting than their chatter is what is going unsaid—the underlying messages women communicate without mention, speaking them. Whole codes of conduct go without mention, yet they govern the way women communicate. Using these codes, women organize themselves into hierarchies. Come listen to the unveiling of these unspoken codes.

Here We Have Idaho: Student-Driven Research Exploring the University of Idaho Community, Part I

This session (Part I and II) is a compilation of student-led research into life at the University of Idaho. It is an outgrowth of a unique year-long class at the University that is only available to first-year students and it represents an attempt by the class instructor (and session organizer) to act on the ideals of an Honors class, namely to use honors classes to experiment pedagogically. Rather than conform to typical evaluative models of papers and tests, students were given the option of creating a semester-long research project. The papers presented represent some of the final products of student research.

Stevee Asch  
Thomas Carpener  
Chapman University  
Culture Wars and Peace: What the Restructuring of the American Economy will Mean for Artists

Roosevelt's New Deal created substantial government funding for artists, and the Culture Wars of the 1980s and 1990s took most of it away. What will the current collapse and restructuring of our economy mean for artists? Will funding return or will conservatives spark a new age of Culture Wars?

* Mature photos may be shown when illustrating the beginnings of the Culture Wars.

Elizabeth Stokes  
Cochise College  
Society, Sexuality, and Spirituality in Dystopia

A 21st century examination of four Dystopian novels from the 20th century, Yevgeny Zamyatin’s We, Aldous Huxley’s Brave New World, George Orwell’s 1984, and Margaret Atwood’s The Handmaid’s Tale, which reveal prophetic themes of the self in relation to society, sexuality, and spirituality.
At the Back of the Classroom: White Privilege and the Minority Experience at a Private Christian College

Universities are unique, simultaneously perpetrating the momentum of homogeneity, while functioning as a converging point for racial diversity. This project uses qualitative interviews to explore the collision of these realities, recording the minority student experience, their resulting adjustment strategies, and future implications for universities.

Sustaining the Integrity of M&A Due Diligence: An Examination of the Fair Value Environment

This presentation describes an intensive study of fair value theory and how it may unknowingly affect the due diligence process in mergers and acquisitions. The study highlights the strengths and weaknesses of due diligence in several areas, the implications for an enhanced scope of due diligence, and a review of new managerial discretion.

Session Seven: 10:45am-11:45am

Broadening Universals: Incorporating Shuswap Kwalt into a Model of Color Term Evolution

This paper examines the composite color category YELLOW/GREEN in the Salish language, Shuswap. The purpose of the paper is to show that YELLOW/GREEN cannot be dismissed as an insignificant exception to universal color term evolution; rather its integration is vital to creating a comprehensive model.

Blazing Pathways to Sustainable Education

A creative work based on Instructional and Game Design, Quan’da’ry blazes a new path to educational sustainability. This presentation outlines the game design process for the layperson and enables students, parents, and educators to create meaningful environments where play encourages students to gain knowledge, review concepts, or pursue creative expression.

Minimizing Energy: Creating an Organic, Sustainable Garden

The Konkow Organic Garden (KOG) is designed and maintained by Honors House residents. The garden is used as a research and teaching tool for classes and projects dealing with the University’s strategic goal of sustainability. The KOG works to minimize energy inputs and is installing a rainwater catchment system.
A Comparative Study of Restaurant Water in Cedar City, Utah and Guaymas, Sonora, Mexico

Restaurant water quality in Cedar City and Guaymas was examined to determine if there is a significant difference. Restaurants along main streets of both towns were chosen randomly for inclusion in the study. Water was gathered in sterile vessels and tested for coliform, E. Ccoli, nitrates, lead, and dissolved solids.

A Day (Year) in the Life of a Scribendi Staff Member: Want to Know What it Takes?

Scribendi staff members will offer a multimedia description of their day-to-day expectations, accomplishments, challenges, and epiphanies. Through visual displays, printed handouts, brief skits, PowerPoint presentations, and possibly a short video documentary, Scribendi students will show WRHC attendees a bird’s eye view of their experiences.

The Relevance of Dard Hunter’s Graphic Design During the Arts and Crafts Movement

Dard Hunter epitomized the American Arts and Crafts Movement during the early 1900’s because of his easily recognizable and circulated iconic designs. This presentation will recognize his earlier contributions to the visual style of the Arts and Crafts Movement in America. PowerPoint will be used to look at Hunter’s work.

Here We Have Idaho: Student-Driven Research Exploring the University of Idaho Community, Part II

This session (Part I and II) is a compilation of student-led research into life at the University of Idaho. It is an outgrowth of a unique year-long class at the University that is only available to first-year students and it represents an attempt by the class instructor (and session organizer) to act on the ideals of an Honors class, namely to use honors classes to experiment pedagogically. Rather than conform to typical evaluative models of papers and tests, students were given the option of creating a semester-long research project. Chapman University .................................................................Poster 1
‘Wolof: From Oppressed to Oppressor

The Wolof language community of West Africa began as humble subjects of the Mali Empire lead by King Sundiata. They soon formed their own nation state in Senegal and the Gambia known as the Djolof Empire, which became a crucial part of history by aiding the Atlantic Slave Trade.

Alan Emanuel
Washington State University ..............................................................Poster 2
The ablation of hindbrain catecholamine neurons innervating medial hypothalamic nuclei abolishes glucoprivic feeding but not ghrelin-induced feeding

We undertook this experiment to determine whether the same neurons required for increased feeding in response to glucose deprivation are required for feeding induced by the gastrointestinal peptide, ghrelin. Specific lesion of these neurons did not affect feeding in response to ghrelin administration.

Keith Funkhouser
Jess Green
Chapman University .................................................................Poster 3
Psychedelics and the "Stoned Ape" Theory

Picture yourself in a boat on the river, with tangerine trees and marmalade skies. Now picture yourself as an ape in the forest, with magical mushrooms and a complex, conscious mind. This poster will scrutinize writer-philosopher Terrance McKenna's theory that human evolution was guided by the psychedelic drug psilocybin.

Paul Jones
Chapman University .................................................................Poster 4
Dentist, Dairy and Dishonesty: The Revitalizing Power of Raw Milk

Raw milk is an accessible and delicious source of lasting nutritional benefit, according to scientific research. So why don't more of us drink it? Come learn more about raw milk, the dairies that produce it and the tactics commercial dairy lobbyists use to shut down raw milk production.

Cari Anne Cranney
University of Idaho .................................................................Poster 5
Social Inequality in the Globalization of Apparel and Textiles, International Labor Standards

Globalization of the Apparel and Textile industries has initiated outsourcing of many jobs. Albeit the work is needed, it is essential to respect the basic human rights of laborers. International collaboration is crucial to instigate fair labor standards that respect basic human rights and a sustainable industry.
Jenica Draney  
University of Idaho  

Global Nutrition

My research deals with using nutrition and food to solve the UN’s Millennium Goal of eradicating poverty and hunger. I am trying to identify different "models" of nutrition that are used internationally so that I may determine an ideal model that could be implemented internationally to promote sustainability.

Erin McGown  
University of Idaho  

The Long War

My research examines “The Long War” in Afghanistan, focusing on potential stability and what must be done to reach stability on a multilateral policy level. The Afghani government is used as an indicator of stability, with other factors that affect it also being examined.

Lauren McConnell  
University of Idaho  

Invasive Species on International Trade

My research examines the effects of alien invasive species on international trade, focusing on trade relations between developed and developing nations and potential corrections to the market externalities linked to invasive species.

Lindsey Myers  
The University of Montana  

Soils and Root Disease

This study explores correlations between root disease severity and soil nutrients, soil texture, and soil pH. A negative correlation is observed between root disease severity and silt. For the sand and clay there is no significant relationship to severity in the preliminary statistics test. The Statistical analyses for soil texture, soil nutrients and pH will be completed by the end of February.

Stevee Asch  
Chapman University  

Don't Kiss Me: Female Photographers and Their Controversial Self-Portraits

For more than 150 years, both the art of photography and women have fought for rights and recognition. Four women artists from different eras had a profound effect on photography's advancement as an art form while also producing creative and provocative self-portraits that asserted their changing female identities.
Beyond Black & White: Our Vietnam Experience

Before this course, hearing about the Vietnam War and its importance to the United States made our ignorance, as Honors students, feel shameful. We’ll share with you what we’ve learned and the importance of offering courses designed to allow students to learn in-depth about this critical part of our collective history.

Investigating Neurovascular Coupling Under High Stimulation

I am using optical imaging technology to record brain activity and characterizing the relationship between electrical activation and hemodynamic response by measuring saturation thresholds of the two correlated responses. If the hemodynamic response saturates before the electrical response, the activated region of the brain experiences a metabolic deficit and may need sleep to recover.

Mapping Regions of Env Important in the Neutralization of Equine Infectious Anemia

Equine Infectious Anemia Virus (EIAV) is a lentivirus that is very similar to Human Immunodeficiency Virus (HIV). In order to develop a vaccine for EIAV, it is necessary to identify neutralizing epitopes in the env glycoprotein that elicit neutralizing antibody. This project focused on mapping the V5, V6, and V7 regions of env.

Opposites Detract

This poster explores the dichotomy between Eastern and Western cultures through the lens of Jacque Derrida's literary deconstruction theories. It compares how Western cultures create a linear perception of the world dominated by opposing forces, whereas Eastern cultures conceptualize the universe as a circular unit maintained by balance and unity.
Participating Institutions of Higher Education

Azusa Pacific University
Brigham Young University
Cal Poly Pomona
Central Arizona College
Central Washington University
Chaffey Community College
Chapman University
Chico State
Cochise College
Gateway Community College
Mesa State College
Metro State College Denver
Sacramento City College
San Diego State University
Southern Utah University
The College of Idaho
The University of Montana
University of Colorado at Boulder
University of Idaho
University of Nevada, Reno
University of New Mexico
University of Wyoming
Washington State University
Weber State University
Western Wyoming Community College
Westminster College
