CONTROL OFFICER:

ENVIRONMENTAL CONTROL PERMIT

Failure to comply with the conditions of the following permit requirements could result in the issuance of a citation, your business name being published in a local newspaper, and the revocation of your environmental control permit and/ or license.

PERMIT REQUIREMENTS:

1. The 8000-gallon sand-oil interceptor (connected to storm drain) located on site must be pumped out every 12 months.
   • The pumping must include removing all of the contents in the sand-oil interceptor.
   • The contents of the sand-oil interceptor may not be flushed out into the sewer system.
   • The sand-oil interceptor must be monitored and maintained to insure proper continuous operation and compliance with Reno Municipal Code discharge limits.
   • It is a violation to discharge or place prohibited materials in the sewer or storm drain system.
2. Keep receipts/manifests for the removal of all wastes and recyclable materials on site and available for review and verification.
3. Washing outside to the storm drain system is prohibited.
4. The removal of all wastes must meet City, County, State and Federal requirements.
5. This business is required to contact Environmental Control at 334-2350 prior to any changes in operation that may alter the quantity or quality of wastewater.
6. This permit is non-transferable.
8. Per RMC Sec. 12.16.595, Environmental Control personnel bearing proper credentials shall be given ready access to all parts of the premises for the purpose of inspection, sampling, and records examination.
9. UNR Sierra St Parking Bldg. must immediately notify the City of Reno (City) at 775-722-4660 within twenty four (24) hours of any discharge or release that has the potential to adversely affect the City’s sanitary sewer system, storm sewer system or the groundwater aquifer.
