NIOSH Mining Employment Opportunities

The National Institute for Occupational Safety and Health (NIOSH) Mining Program recruits to fill a diverse range of research and operational positions on an ongoing basis.

Most of these positions are within the Office of Mine Safety and Health Research (OMSHR), which has research centers in Pittsburgh, Pennsylvania and Spokane Washington. Our research function solicits candidates in all mining-applicable disciplines, including chemistry, physics, social sciences, and engineering (mining, chemical, mechanical, electrical, and biomechanical). We also solicit operational candidates in areas of administration, communication, and information technology.

Employment opportunities through USAJobs

We seek employees through postings on USAJobs (www.usajobs.gov) and several other venues. Our currently active USAJobs positions are listed below and you can be alerted to our future openings by creating a USAJobs saved search containing the text "OMSHR". Even if we do not have a USAJobs posting that matches your qualifications, we are still interested in talking with you to discuss upcoming opportunities that may provide a good fit with your credentials.

Fellowship opportunities

NIOSH also has a special hiring program for Associate and Senior Research Fellows. This program provides opportunities for candidates with advanced degrees in scientific areas and opens the hiring to include experts from around the world.

Advantages of working for the NIOSH Mining Program

We offer excellent work and research facilities a competitive salary and benefits package and the opportunity to make an impact on improving safety and health for mine workers.

For more information on job openings contact: Andrea Pascoe-Conteen, 412-386-5115, OMSHRRecruitment@cdc.gov.
Upcoming openings

OMSHR plans to hire a number of high-priority research and administrative positions in the coming months. Candidates can prepare their credentials and request information in advance. Some of these positions include:

- Visual information specialists
- Statisticians
- Computer engineers

Continuous open announcements

OMSHR has continuous announcements of critical positions for which applicants to apply at any time.

- Mining engineers
- Mechanical engineers

Current openings through USAJobs

- Mechanical Engineer - United States Citizens
- Mining Engineer - United States Citizens
