GIS Consultant - Elko, NV, U.S.A

SRK Consulting is an independent, international consulting practice, providing globally integrated consulting services to the international mining and metals sector.

We are seeking a GIS Consultant to be based in our Elko, NV, U.S.A office

Description of Responsibilities:

We are seeking a GIS Consultant, based in our Elko, NV office. The successful candidate will perform tasks that include the preparation of custom and standard map products and report figures for various permitting and design reports. Projects typically involve location maps with various land-use overlays, and may require drawings or maps of surface facilities and earthworks structures for the mining industry including open pits, tailings impoundments, heap leach pads, waste rock dumps and surface infrastructure. The applicant should also have a strong background in database management and server-based technology.

Essential Requirements:

- Bachelor’s or master’s degree or participation in a degree program for GIS, Geography or other related discipline;
- At least five years of experience working as a GIS professional;
- Proficiency in Microsoft Office Suite and ArcGIS and extensions;
- Database management, particularly experience with EHS;
- Knowledge of principles, practices and applications of geography, cartography, and GIS systems and GPS principles;
- Ability to multi-task with well-developed interpersonal and communication skills; and
- Familiarity with the mining industry and environmental permitting will be considered strong advantages.

In return for considering a future with us, we offer:

- An attractive compensation package.
- Diversity of projects and clients within a non-hierarchical consultancy environment.
- Opportunity to purchase shares in the company; the SRK Group is an independent group, owned by its employees.

Applicants should respond by submitting their CV online by clicking the button below. The candidates under consideration will be contacted directly, no phone calls please.
