### The Position

Biologists conduct fisheries, wildlife and/or habitat management projects and research studies including data collection, analysis and interpretation; develop and implement project proposals and work plans; prepare recommendations; and participate in public relations activities.

Incumbents possess a degree of knowledge and proficiency sufficient to perform work independently with little or no additional training.

The primary duties of this position involve the coordination and implementation of surveys studying non-game wildlife in the Tonopah region, compiling and summarizing data into annual reports, providing reviews of resource management documents to the NDOW Habitat Division, and representing the Wildlife Diversity Division for various inter and intra-agency meetings. This position serves as the statewide project lead for implementation of the Conservation Agreement for Columbia spotted frogs in Nevada as well as other work directed by the Fisheries Division. Based in a small remote field office in Nevada, this position also serves as a critical point of contact for NDOW to interact with members of the public.

To see full Class Specifications visit: [http://hr.nv.gov/Resources/ClassSpecs/Class_Specifications-1_0/](http://hr.nv.gov/Resources/ClassSpecs/Class_Specifications-1_0/)

### To Qualify

#### Education and Experience

1) Bachelor's degree from an accredited college or university in biology, wildlife management or closely related field and three years of professional wildlife management experience such as conducting research studies including data collection, analysis and interpretation; development and implementation of project proposals for fisheries, wildlife and/or habitat management projects; OR two years of experience as a Biologist II in Nevada State service; OR an equivalent combination of education and experience.

#### Special Notes

1) Work may be performed under adverse weather conditions and include extensive walking under difficult conditions in remote and/or primitive locations.

2) Working on occasional nights and/or weekends may be required.

#### Special Requirements

1) Statewide travel and outdoor work is required.

2) A valid driver's license is required at the time of appointment and as a condition of continuing employment.

### Examination

#### Application Evaluation Exam

The exam will consist of an application evaluation. It is essential that applications include detailed information with time frames regarding education and experience. The most qualified applicants will be contacted by the hiring agency for interview. The hiring agency may require specific skills related testing as part of the interviewing process.
