About Renown Health
Renown Health is northern Nevada’s healthcare leader and Reno’s only locally owned, not-for-profit health system. We are an entire network of hospitals, urgent care centers, lab services, x-ray and imaging services, primary care doctors and dozens of medical specialties. We help you live a healthier life, and we’re the experts you go to when you are seriously ill or injured. We have more than 5,000 nurses, doctors and care providers dedicated to your health and well-being every day of the year. Find out more about Renown.

About the Internship
The intern will work on building an interface between the Applicant Tracking System (ATS) and the Human Resources Information System (HRIS). The interface of data will eliminate the need to manually enter in the majority of new hire information. The intern will shadow internal resources at Renown, attend regular planning meetings and conference calls with vendors, and will learn how to use Kronos (a Human Resources Information System) and applicant tracking systems.

Qualifications
- Experience with or knowledge of information systems and integrations
- Experience with or knowledge of FTP
- Experience with or knowledge of project management

Internship Duties
- Work with multiple vendors to coordinate the transfer of data from one system to another
- Determine system requirements and FTP requirements
- Data mapping
- Work closely with internal IT resources and vendor liaison to help manage project timelines and complete testing prior to going live

$12/hour for 120 hours
Spring Semester 2016
