About Code Tahoe
Code Tahoe, located inside of Elevate Blue venture accelerator, is the first code school in the Reno/Tahoe area. We are a destination code academy open to the public, and for local students at Sierra Nevada College, University of Nevada, Reno, Western Nevada College, Incline High School, and people from around the world who want to learn to code and get into the world of web development.

Code Tahoe offers introductory courses in core programming principles, but quickly expand into bleeding edge web technology ranging from HTML and CSS, to basic and advanced JavaScript, including ReactJS and React Native for iOS and Android.

Join us today and get the skills you need to succeed while enjoying the greatest place on earth - Incline Village, on the shores of beautiful Lake Tahoe!

About the Internship
This individual will be helping out with all aspects of Code Tahoe, primarily operations, business development, some marketing assistance, financial, and generally will be exposed to all aspects of starting up a small business that is about to explode in the region. The intern’s duties will vary day to day, but will always be working very closely with the Code Tahoe team. The intern will learn quite a bit about the operational structure of a company, including but not limited to marketing, sales, finance, and growth hacking.

***Please Note: This position is in Incline Village***

Qualifications
- Strong communication and proficient writing skills
- Detail oriented
- Interested in Startups and running a business
- Drive to learn

Internship Duties
The intern will serve as an operations generalist, and will assist in any operational duty the executive director and/or general manager need additional help with.
