

## Coming Out Later in Life

This support group is for individuals coming out as gay, lesbian, transgender, and genderqueer later in life. Your definition of “later in life” will suffice! Join us for acceptance, connection, and friendship. We will walk the path together – giving each other the freedom to talk about losses, fears, the excitement of new possibilities, the courage to come out, and the work of integrating a new identity in one’s life.

Facilitators: Mary Minten MFT and Chris Dietrich MFT-Intern
