Returning Students: Students returning to the university after an absence of one or more semesters are required to resubmit an application for admission. Each individual who attends another educational institution since last enrolling at the university must submit official transcripts from each school attended whether credit was earned or not.

Nondegree: An individual who is not admitted to a degree program is defined as a nondegree student. Individuals who have earned a bachelor's degree are not eligible for non-degree status. A nondegree student may register for a maximum of 8 undergraduate semester credits per semester. Although there is no limit to the number of credits that may be earned as a nondegree student, a maximum of 32 semester credits is acceptable toward a baccalaureate degree. Nondegree students are not eligible for financial aid, including student loans.

Graduate Special: The graduate special classification is for students who have earned a bachelor's degree from a regionally accredited institution and who wish to take graduate courses but do not plan to pursue a program leading to an advanced degree, or for applicants who do not meet the requirements for admission to regular graduate standing. Admission to graduate special status does not constitute admission to the graduate school. With graduate special classification, a student may enroll for undergraduate or graduate credit and may satisfy the teacher certificate requirements. Although there is no limit to the number of credits that may be earned as a graduate special student, a maximum of 9 semester credits may be applied toward a program of study. Graduate special students are not eligible for financial aid, including student loans.
