Internship Site Information

Aleph Academy is an early childhood facility that strives to be a model of excellence in all aspects of early childhood care and education. We are participants of QRIS, Healthy Way to Grow and are a NV TACSEI Demonstration site. Aleph Academy is a non-profit program that serves children and families one to five years of age. We focus on the arts and nature to give children a multi-faceted approach to learning.

There are many opportunities for an intern to gain experience in administration or working directly with children and their families, planning and implementing curriculum both in the classrooms and in our natural playscape outside. Additionally, interns can gain knowledge and experience with children's development, health and nutrition, and building relationships with families. Intern may have the opportunity to work with NV TACSEI, NAEYC accreditation, QRIS, and the Healthy Way to Grow program.

This internship is designed for someone who is committed to the field of early childhood education and wants to experience a quality early childhood education program. Intern will meet weekly with the intern supervisor. Aleph Academy is open from 8:00-5:30 Monday-Friday. Internship hours are flexible and can be done anytime during those hours.

Number of Internships Available: 2

Student Requirements

Willing to get a TB test, Sheriff’s card and fulfill other initial requirements

How will student obtain this internship?
