Name: Lily Davalos
Phone: 775-624-7112
Email: Lily@immunizenevada.org
Physical Address: 427 Ridge St., Suite C, Reno, NV 89501

Internship Site Information

As Nevada’s only statewide nonprofit dedicated to immunizations, Immunize Nevada saves lives by preventing disease and promoting health. We accomplish this through increasing the vaccination rates of Nevada’s children, teens, adults & seniors; ensuring adequate public health resources; training healthcare professionals and expanding health collaborations.

The student internship opportunity will focus on identifying avenues to increase early childhood immunizations. This may involve evaluating current day care center policies, designing an educational curriculum, active outreach with parents and presenting at local groups. The student intern can complete the project in the office. The intern may have to attend a few outreach events which are usually scheduled on nights and weekends.

Number of Internships Available: 1

Student Requirements

1. Flexible Schedule
2. Self-motivated
3. Have access to reliable transportation
4. Knowledge of recommended infant immunizations is preferred, but not required
