Internship Site Information

In an effort to support and strengthen families in our community, R.A.V.E., or Respite and Volunteer Experience, is a local non-profit that provides respite, or a break, to families caring for children with special needs. Along with center-based sessions for children with special needs and their siblings from ages infant to six years old, R.A.V.E. offers a Jr. and Teen program for older children. For families with children with unique needs or who live in rural locations, a voucher program is offered for families to procure care in their homes.

In addition, the program recruits high school volunteers and teaches them basic child development, guidance, and CPR while providing them the opportunity to give back to their community.

Interns will have the opportunity to assist in setting up and participating in center-based sessions, plan and participate in special events and fundraising, solicit gift donations, and serve among other projects.

Number of Internships Available: 3+
