Physical Address: 1054 War Bonnet Way, Incline Village, NV 89451

Mailing Address (if different):

Internship Site Information

kiddOTherapy provides home based OT services to children ages birth-20. Children and their families receive OT services in their homes. Students will mainly observe and participate in therapy sessions with Courtney. Usually we are able to coordinate meeting and leaving your car so you will ride with Courtney, however, there may be instances where this is not possible and you will be responsible for your own transportation. Observation of sessions occurs on Mondays, usually with a very full schedule. Evaluations and treatment sessions are the main activities being observed. Diagnoses include sensory processing disorder, Autism, Cerebral Palsy, visual impairments, behavioral disorders, neurodevelopmental disorders, motor delays, visual perceptual challenges, ADD/ADHD, and neuromuscular disorders. There is the opportunity to complete other activities related to OT but these are discussed during the time of your internship and vary among students. There is also the possibility of planning and implementing a simple project with appropriate clients half way through the semester. If you have additional questions please contact Courtney.

Number of Internships Available: 1

Student Requirements

1. Transportation
2. Monday availability
3. Being self-aware of culture as we do enter into a wide variety of homes and witness many different life styles. How will student obtain this internship?
