Immunization Requirements for International Students

Tdap: Vaccination must have been received within the last 10 years. Tdap preferred over TD due to recent pertussis outbreak.

MMR: Two vaccinations are required. The first MMR vaccination must have been received on or after the first birthday.
If one or both vaccinations have been received before the first birthday, then the student must receive another MMR vaccination.
There must be at least four weeks between MMR dose #1 and MMR dose #2.

Meningitis Vaccination (Groups A, C, Y, and W-135): Vaccination for meningitis is mandatory if the student is under the age of 23 years and is attending UNR. Vaccination with at least one dose of a quadrivalent meningococcal conjugate vaccine (MCV4) on or after age 16 years will satisfy this requirement. Although meningococcal Group B or C vaccines are not a requirement, it is recommended that students receive the vaccines before coming to campus.

QuantiFERON or PPD skin test (Tests for Tuberculosis): A test for tuberculosis is mandatory for most international students (see “Low Incidence” attachment for exceptions).* QuantiFERON blood test is preferred, but PPD skin test will be accepted. Students who have had either of these tests done in their country within the past six months will meet this requirement if documentation is provided. A chest X-ray cannot be done in place of a PPD skin test or a QuantiFERON blood test. However, any student who has had a positive test result for Tuberculosis (PPD or QuantiFERON) must provide documentation of a chest x-ray completed within the past 6 months (please do not send film. We will only accept documentation of the x-ray report). It is highly recommended that the chest x-ray be done for positive TB result before traveling to the United States to make sure there is no active tuberculosis infection. If the tuberculosis test (PPD or QuantiFERON) result is positive, and there is no documentation of a chest x-ray done within the last six months, the student will be required to have a chest x-ray done at the Student Health Center at UNR.

Students who arrive to campus without proper documentation of a tuberculosis test (PPD or QuantiFERON) will be required to get a QuantiFERON blood test.

PPD test or Quantiferon test must be done before or on the same day as a live vaccine; otherwise, the test must be done at least four weeks after the live vaccine is given. (Live vaccines: MMR, Varicella, Yellow Fever)

These requirements must be met by all international students regardless of the length of their stay and must be completed prior to arrival at the University of Nevada, Reno.

Documentation must be provided for all immunizations, tuberculosis test, and/or chest x-ray. Documentation must include the dates and results (example: size of the tuberculosis test and negative or positive result for chest x-ray).

APPENDIX A

“Low Incidence” Areas with Estimated or Reported Tuberculosis Incidence, 2014

“Low Incidence” areas are defined as areas with reported or estimated incidence of <20 cases per 100,000 population.

The following countries DO NOT NEED tuberculosis screening:

Albania  Dominica  Puerto Rico
American Samoa  Egypt  Saint Kitts and Nevis
Andorra  Finland  Saint Lucia
Antigua and Barbuda  France  Samoa
Aruba  Germany  San Marino
Australia  Greece  Saudi Arabia
Austria  Grenada  Saint Maarten (Dutch part)
Bahamas  Hungary  Slovakia
Bahrain  Iceland  Slovenia
Barbados  Ireland  Spain
Belgium  Israel  Sweden
Bermuda  Italy  Switzerland
Bonaire, Saint Eustatius and Saba  Jamaica  Syrian Arab Republic
British Virgin Islands  Japan  The Former Yugoslav Republic of Macedonia
Canada  Jordan  Tokelau
Cayman Islands  Lebanon  Tonga
Chile  Luxembourg  Turkey
Cook Islands  Malta  Turks and Caicos Islands
Costa Rica  Monaco  United Arab Emirates
Croatia  Montserrat  United Kingdom of Great Britain and Northern Ireland
Cuba  Netherlands  United States of America
Curacao  New Caledonia  US Virgin Islands
Cyprus  New Zealand  Wallis and Futuna Islands
Czech Republic  Niue  West Bank and Gaza Strip
Denmark

STUDENT HEALTH CENTER

Date of Birth: ___/___/____ Gender: Male  Female  Country of Residence: ______________

(mon) (date) (year)

As an International student, the following immunizations and/or tests are required before enrollment to UNR. In order to make your transition to UNR as smooth as possible, it is highly recommended that these be completed prior to arrival. Please provide documentation on this form of all completed immunizations.

*Tdap (Tetanus, Diphtheria, & Pertussis) Date: ___/___/____

(Received within the last 10 years. Tdap preferred over TD. Specify which vaccine was given)

*MMR (Measles, Mumps, & Rubella) 1)Date: ___/___/____  2)Date: ___/___/____

(2 vaccines needed: first one must have been received on or after the first birthday and dose #2 after age 4)

Measles 1) ____/____/____  2) ____/____/____

Mumps 1) ____/____/____  2) ____/____/____

Rubella 1) ____/____/____  2) ____/____/____

OR

MMR Titer (blood Test) Date: ___/___/____

(attach lab report)

*Meningitis Vaccination (Groups A, C, Y, W-135) Date: ___/___/____

(mandatory for students who are under the age of 23 and attending UNR. At least one dose of MCV4 vaccine received on or after age 16 years will satisfy this requirement. Meningococcal Group B or C is not accepted)

*PPD skin test Date Received: ___/___/____

(Tuberculosis testing within 6 months prior to enrollment) (mon) (date) (year)

Date Read: ___/___/____

(mon) (date) (year) Result: ________ mm

OR

Quantiferon blood test Date: ___/___/____

(attach lab report) (mon) (date) (year) Result: Negative  or  Positive
